LTE USB modem

Problem

Are there any USB LTE modems available for the MikroTik devices with a USB port so we can plug into our existing units on-premise and use mobile data?

Solution

Currently, we do not have any USB modems in our product range. It is possible to use a mini-PCIe to USB adapter to connect our LTE modem to a USB port on the device. List of our LTE mini-PCIe factor modems:

https://mikrotik.com/product/r11e_lte_us
https://mikrotik.com/product/r11e_lte
https://mikrotik.com/product/r11e_4g
https://mikrotik.com/product/r11e_lte6

Alternative is to use a USB modem from the supported peripherals list:
