

MTP15-5V30-IC-USBC

MTP15-5V30-IC-USBC

MTP15-5V30-IC-USBC is a stand-alone PSU that allows powering devices over the USB.

Safety information

- Before you work on any MikroTik equipment, be aware of the hazards involved with electrical circuitry, and be familiar with standard practices for preventing accidents. The installer should be familiar with network structures, terms, and concepts.
- This equipment is to be installed by trained and qualified personnel, as per these installation instructions. The installer is responsible for making sure, that the installation of the equipment is compliant with local and national electrical codes. Do not attempt to disassemble, repair, or modify the device.
- We cannot guarantee that no accidents or damage will occur due to the improper use of the device. Please use this product with care and operate at your own risk!
- In the case of device failure, please disconnect it from power. The fastest way to do so is by unplugging the power adapter from the power outlet.
- Contact time to touch PSU will be (> 1 s and < 10 s).

First steps

MTP15-5V30-IC-USBC is ready for use, it must be plugged into a secure power socket.
The device accepts power from AC source with interchangeable socket plugs to meet EU, US, or other standards.
Plug in Ethernet cable, connect your powered equipment with MTP15-5V30-IC-USBC

Configuration manual for software in your language with additional information can be found at <https://mt.lv/help>
If you need help with configuration, please seek a consultant <https://mikrotik.com/consultants>

Powering

The device accepts power from AC source with interchangeable socket plugs to meet EU, US, or other standards.

Input: 100-240V ~ 50/60Hz 0.5A Max.

--- Output: (USB, USB C type) 5.4V 3A.

Max power consumption 12 W.

Power output

The device supports PoE out from Ethernet port - 2.5 A 5 V DC . You can power MikroTik devices which support passive powering through Ethernet.

Operation Environment

Operating temperature: 0°C to 50°C (no condensation)
Only for indoor use.

WARNING. Warning statements identify conditions or practices that could result in injury or loss of life.

Symbols on the Product

The following symbols may appear on the product:

- Double insulated.

- Do not dispose of electronic equipment as unsorted municipal waste. Please use a separate collection facility or contact the supplier from which this instrument was purchased.

- Only for indoor use.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This unit was tested with shielded cables on the peripheral devices. Shielded cables must be used with the unit to ensure compliance.

Innovation, Science and Economic Development Canada

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe [B] est conforme à la norme NMB-003 du Canada.

CAN ICES-003 (B) / NMB-003 (B)

UKCA marking

Eurasian Conformity Mark

Информация о дате изготовления устройства указана в конце серийного номера на его наклейке через дробь. Первая цифра означает номер года (последняя цифра года), две последующие означают номер недели.

Изготовитель: Mikrotikls SIA, Aizkraukles iela 23, Rīga, LV-1006, Латвия, support@mikrotik.com. Сделано в Китае, Латвии или Литве. См. на упаковке.
