

Older Newsletters

Newsletter PDF's are available here - https://mt.lv/news_archive

Issue 96, June 2020.

- The new features of the latest RouterOS 7 BETA release
- netPower 16P
- LDF LTE6 kit
- GPEN21
- Wireless Wire nRAY
- Even lower prices for CWDM
- An in-depth review of our CCR1009-7G-1C-1S+

Issue 95, May 2020.

- Covid-19 update
- hAP ac³ LTE6 kit
- CCR2004-1G-12S+2XS
- CRS326-24G-2S+IN
- UNII-2 support for the United States and Canada
- ServeTheHome: "...best value 48x PoE+ on the market?"
- MikroTik switch in Linus Tech Tips

Issue 94, March 2020.

- CRS354-48P-4S+2Q+RM – a 48 port PoE+ switch for 40 Gbps setups
- netPower 15FR - an outdoor switch with 15 reverse PoE ports and SFP
- GPEN Concept
- The new Chateau CAT12
- InterCell LTE base station
- MikroTik powered Smart Bench
- The postponed MikroTik events
- MUM schedule

Issue 93, January 2020. Translations to Arab, Chinese, French, Indonesian, Portuguese, Russian, Spanish, Turkish

- CRS354-48G-4S+2Q+RM – the 48 port champion you've been waiting for!
- NetMetal ac²
- Real-life "firewall" fighting hail in Serbia
- MikroTik 5G booth at MWC2020
- "Most valuable company in Latvia" award
- MUM Europe 2020 in Prague
- Upcoming MUM events in 2020

Issue 92, November 2019

- MikroTik CAT6 product line – even higher LTE speed and new features
- Cube Lite60 - the most affordable 60 GHz CPE
- Linus Tech Tips and MikroTik
- Upcoming MUM events
- Exciting details about the MUM Europe in Prague

Issue 91, September 2019

- Audience
- LoRa is ready
- MQS
- GPeR outdoor case
- MikroTik Olympians
- "Wake up, Neo..."
- CCR revisions
- MUM schedule

Issue 90, August 2019

- New exciting switches
- QSFP accessories
- LHG XL 52 ac
- PWR-LINE PRO
- quickMOUNT-X
- 5G mobile network
- Lifehacks
- AI driving supercars
- MUM schedule

Issue 89, June 2019

- Introducing LtAP - a heavy-duty 4G (LTE) access point with GPS support
- wAP ac LTE - powerful and versatile dual-band wireless access point with LTE support
- LHG 60G - a high speed 60 GHz CPE point-to-multipoint unit, perfect solution for crowded wireless spectrum
- Gigabit Passive Ethernet Repeater (GPeR) - best way to extend your Ethernet network in the trickiest spots
- New MikroTik LoRa products- Internet of things has never been so affordable
- WiFi on Mount Everest
- MikroTik goes to space
- Upcoming MUM events in 2019

Issue 88, April 2019

- MikroTik mobile app
- New PWR-LINE series products
- CCR upgrades
- S+RJ10 improvements
- $\pm 48\text{v}$ telecom power supply for new CCR models
- new Gigabit Passive Ethernet Network product GPEN11
- Gigabit Ethernet Surge Protector RBGESp
- MUM schedule

Issue 87, February 2019

- new 8 x SFP+ port switch CRS309-1G-8S+IN
- new wAP 60Gx3 60GHz Sector Base Station
- new low cost 60GHz CPE LHG Lite60
- InterCell - LTE Base Stations, preorders available
- new active direct attach 5m cable
- RB4011 rackmount ears
- MUM schedule
- MUM Europe 2019 in Austria

Issue 86, December 2018

- new PWR-LINE AP
- new wAP, LtAP mini, LHG and SXT kits for LTE bands 3,7,20,31,41n,42 and 43
- new metal SOLIDmount
- wall mount kit for RB4011 series
- MUM schedule
- MUM Europe 2019 in Austria

Issue 85, November 2018

- new CRS305-1G-4S+IN switch with four SFP+ ports
- new LHG LTE kit with 17 dBi LTE antenna for extreme rural locations
- new LTE card R11e-4G for extra bands (including 450 MHz, 2.5 GHz, 3.5 GHz and 3.7 GHz)
- DINrail PRO for LtAP mini
- metallic LHG mount
- new SFP 1.25 Gbps modules for 80 km links
- upcoming MUM events schedule

Issue 84, September 2018

- new RB4011 series

- CWDM products - combine up to eight fiber links into one
- new 2.4 GHz sector AP mANTBox 2 12s
- new 60 GHz CPE SXTsq Lite60
- new 6 GHz AP BaseBox 6
- upcoming MUM events in 2018

Issue 83, June 2018

- hEX S, new five Gigabit port router with SFP
- new, improved SXT LTE kit with two Ethernet ports
- RB450Gx4 with 4-core CPU, 1 GB of RAM and hardware IPsec encryption
- small size low cost SXTsq Lite2 CPE for 2.4Ghz
- LDF 2 for ultra-long 2.4GHz links
- 60 GHz updates
- Upcoming MUM events in 2018
- Train the Trainer in Riga and Bangkok

Issue 82, May 2018

- 60 GHz Wireless Wire Dish - 2 Gbit/s aggregate link on 1,500 m+!
- MUM Europe 2018 new product announcements
- LtAP mini LTE kit - Wireless + LTE + GPS solution with two SIM slots
- External antenna for our LTE solutions MANT LTE 5o
- RouterOS v6.42 - time to upgrade!
- CRS328-4C-20S-4S+RM, 28 port switch
- 48 V 2 A 96 W power supply
- Upcoming MUM events in 2018
- Train the Trainer in Riga and Bangkok

Issue 81, March 2018

- new CRS328-24P-4S+RM 500 W with 24 PoE-out Gigabit Ethernet ports, \$379
- new wsAP ac lite, in-wall Dual Band AP, \$49
- new Disc Lite 5 ac, 5 GHz 21 dBi CPE/Backbone with Gigabit Ethernet and 802.11a/n/ac support, \$58
- MUM Europe 2018 is next month!
- MUM 2018 schedule
- Train-the-Trainer courses in Europe and USA
- New CHR features
- 60 GHz device certification in Europe
- User Manager now supported on ARM and MMIPS devices

Issue 80, February 2018

- new hAP ac² Dual Band Desktop AP, \$69
- new cAP ac Dual Band Wall/Ceiling AP, \$69
- new CRS112-8P-4S-IN with eight PoE-out ports, \$179
- new LHG XL 5 ac, Long Range 27dBi 5GHz with 802.11ac support, \$99
- new LHG XL 2, Long Range 21dBi 2.4GHz, \$68
- new LDF ac with 802.11ac and Gigabit Ethernet, \$59
- LTE miniPCI-e cards, from \$69
- wAP60G available in AP and CPE versions, from \$99
- Match websites in firewall
- MUM schedule
- Train-the-Trainer course in Riga, Latvia

Issue 79, December 2017

- MUM Europe 2018 in Berlin, Germany, April 5-6
- Train-The-Trainer after MUM Europe in Riga, April 9-11
- SXTsq 5, High Power low cost small size 5GHz CPE
- SXTsq 5 ac, small size 5GHz CPE/Backbone with 802.11ac and Gigabit LAN
- LHG 5 ac - 24.5dBi 5GHz CPE/Backbone with 802.11ac and Gigabit LAN
- LHG 2, 18dBi integrated antenna for 2.4GHz
- RBM33G - OEM board with two miniPCI-e slots for 3G/LTE
- IPsec encryption performance
- New bridge
- Upcoming MUM events 2018

Issue 78, September 2017

- Wireless Wire, \$198 paired set
- FiberBox, \$79
- RB1100AHx4, \$299
- mUPS, \$29
- 48 V power supply, \$100
- Wireless calculator
- M11G, \$39
- S+RJ10 10 Gbps ethernet module, \$65
- Woobm-USB, \$16
- Upcoming MUM events 2017-2018
- Train the Trainer Africa, Jan 31 - Feb 02, 2018 in Nairobi, Kenya

Issue 77, August 2017

- new CRS317-1G-16S+RM with 16 x SFP+ cages, \$399
- new low cost small size 5GHz CPE SXTsq Lite5, only \$46
- new wAP LTE kit with 3G/4G/LTE modem, \$119
- new 6GHz long range DynaDish 6, \$179
- new long range LHG HP5 and LHG XL HP5, from \$69
- Traffic Generator tool
- MUM 2017 schedule

Issue 76, June 2017

- RB1100AHx4 Dude Edition, \$349
- hAP mini, \$19.95
- PowerBox Pro, \$99
- CRS326-24G-2S+RM, \$199
- Past and upcoming MUMs
- Qualcomm extends benefits of 802.11ad Wi-Fi

Issue 75, January 2017

- new low cost 2.4GHz cAP lite, \$29
- new low cost 5GHz 21dBi CPE DISC Lite5, \$48
- new SwOS powered 24-port switch CSS326-24G-2S+RM, \$139
- new CRS106-1C-5S with 5 x SFP ports and combo port, \$59
- TR-069 improvements in 6.39rc
- dual boot feature
- MUM 2017 schedule

Issue 74, December 2016

- new dual-band hAP ac lite tower, \$49.95
- new LDF 5 for satellite offset dish antennas, \$39
- new CRS317 with 16 x SFP+ ports, coming Q2/17
- new OmniTik 5 ac with Gigabit and AC, from \$109
- CCR1009 upgrades
- new RouterOS features, including TR-069
- MUM 2017 schedule

Issue 73, November 2016

- New hEX rev3
- Dude server on hEX rev3
- Simple IPsec config in QuickSet
- HW improvements
- New hEX PoE
- CCR1072 hot swap power supplies
- MUM schedule

Issue 72, May 2016

- new Dual Concurrent 2.4/5GHz outdoor Access Point wAP ac, \$89
- new revision 2.4/5GHz miniPCI card R52HnD, \$59

- new adjustable quickMOUNT PRO for LHG antennas, \$9.50
- new software selectable 2.4/5GHz Groove ac from \$79
- wireless product selection guide
- upcoming MUM schedule

Issue 71, March 2016

- new low-cost 5GHz 24.5dBi CPE/backbone LHG 5
- new Dual concurrent 2.4 / 5GHz 3x3 Access Point hAP ac
- new software selectable 2.4 / 5GHz Metal with AC support
- new low-cost 911 ac lite board for integrators
- upcoming MUM schedule

Issue 70, January 2016

- new concurrent Dual Band 2.4 / 5GHz hAP ac lite
- new 5GHz ac integrated sector antennas mANTBox 15s and 19s
- tiny size 2.4GHz mAP lite
- CCR1009-8G-1S-PC with passive cooling and rackmount ears
- upcoming MUM schedule

Issue 69, December 2015

- RB3011UiAS-RM in 1U
- Triple-chain 802.11ac
- miniPCI-express card R11e-5HacT
- Low-cost SXT Lite5 ac
- quickMOUNT extra
- Sleeve for parabolic dish mANT30
- LTE CPE device SXT LTE
- Cloud Hosted Router
- Upcoming MUM schedule
- The Dude
- RouterOS 6.34 RC

Issue 68, November 2015

- mANT15s and mANT19s
- New ROS v6.33 and Winbox 3
- GPON module
- LNS support
- DNS name support
- CCR1072 introduction
- hEX PoE lite
- mANT30 45° feed style
- Single stream TCP 802.11 performance
- MUM Canada and upcoming events

Issue 67, September 2015

- New wAP Access Points
- New software release strategy
- hAP
- hap lite - new case
- hEX
- CHR and network simulation instructions
- DynaDish 5
- quickMOUNT PRO
- Recent MUMs
- Upcoming MUM events

Issue 66, July 2015

- new 5Ghz 802.11ac High Gain SXT HG5 ac, \$119
- new 5Ghz 802.11ac Long Range QRT 5 ac, \$199
- new 8x Gig Eth + 4x SFP Cloud Router Switch 112-8G-4S-IN, \$139
- new low cost wall mount adapter quickMOUNT, \$5.5
- new 10Gbps 10km SFP modules
- PowerBOX updated
- 48v to 24v Gigabit Converter
- RB850Gx2 with Hardware Encryption Acceleration
- MUM 2015 schedule

Issue 65, June 2015

- hEX lite
- WPS button
- RoMON
- FastTrack
- EoIP news

Issue 64, February 2015

- New 2.4GHz hAP Lite, \$21.95 with full RouterOS L4!
- New outdoor PowerBOX with PoE-out, \$69
- New Cloud Core Router 1009-8G-1S-1S PC with passive cooling, \$495
- New MUM 2015 schedule
- PoE out features
- Quickmount
- Protected RouterBOOT

Issue 63, February 2015

- MUM Indonesia
- Winbox 3
- CRS210-8G-2S+IN
- CRS212-1G-10S-1S+IN
- CCR1072 testing

Issue 62, October 2014

- cAP2n
- RB850Gx2
- Radome for mANT
- FTC (Fiber to Copper converter)
- RB911G-5HPacD
- MUM Upcoming Events

Issue 61, August 2014

- NetMetal 5
- mANT30 series • SXT ac series
- NetBox 5
- mAP2n
- R11e-5HacD
- RB922UAGS-5HPacD
- CRS 8 port series
- Our 802.11ac product test results

Issue 60, July 2014

- 802.11ac products and software
- Winbox 3 beta
- HomeVPN "one click" PPTP/IPsec server

- Wallpaper and T-shirt designs

Issue 59, June 2014

- CAPsMAN full support release
- New MUM events
- RJ45 SFP
- Nv2 latency improvements
- Metal 9HPn
- New Cloud features
- RB953GS-5HnT
- RS226-24G-2S+RM

Issue 58, May 2014

- CCR performance upgrade
- mANT30
- CAPsMAN
- Power-cycle
- Auto frequency
- New MUM events and webpage
- CRS features

Issue 57, April 2014

- new 9-core Cloud Core Router 1009-8G-1S
- new 9-core Cloud Core Router 1009-8G-1S-1S+ with dual power supplies and SFP+ support
- new 16-core Cloud Core Router 1016-12S-1S+ with 12xSFP cages, 1xSFP+ cage and dual power supplies
- new 23dBi Super-High power (1000mW) 5GHz long range Backbone/AP QRT-5
- new 2GHz Single chain CPE RouterBOARD 911-2Hn
- new 5GHz Single chain CPE RouterBOARD 911-5Hn
- new 5GHz Dual chain CPE RouterBOARD 911-5HnD
- Heartbleed - MikroTik RouterOS is not affected
- using DNS names in VPN address now possible

Issue 56, April 2014

- new 24-port Gigabit switch CRS226-24G-2S+IN with 2 x 10G SFP+ support
- new 5-port Gigabit switch RB260GSP with SFP and POE-OUT
- MikroTik User Meetings in Turkey, China, India, Thailand - May 2014
- new product catalog

Issue 55, February/March 2014

- Introducing Super High Power (up to 3100mW!!) 2.4Ghz RBQRTG-2SHpND
- low-cost RB1100AHx2-LM version with 512MB RAM
- direct attach SFP/SFP+ cables
- new RP-SMA pigtail and 2.4Ghz Omni for BaseBox
- wrap-up for record-breaking MUM Europe in Venice

Issue 54, January 2014

- Introducing Universal AP/Backbone/CPE - BaseBox2
- New 2.4Ghz dual chain High Power (1000mW) miniPCI-express card R11e-2HPnD
- New 2.4Ghz dual chain low-profile miniPCI-express card R11e-2HnD
- New Flex-guide, super low loss RPSMA cable
- New 5Ghz 17dBi SXTG-5HPnD-HGr2 with Gigabit Ethernet
- New four slot miniPCI-e to PCI-e adapter RB14eU with USB
- New attendance records at MUM 2013 Indonesia, Brazil and Ecuador
- MUM Europe 2014 in Venice, Italy, February 20-21

Issue 53, November 2013

- New "SXT Sixpack-WISP Starter Kit"

Issue 52, October/November 2013

- 3 models of Cloud Router Switch launched
- RouterOS v6.5 released
- R11e-5HnD
- RB14e
- Upcoming MUM in Brazil and Ecuador

Issue 51, October 2013

- CCR 1036-8G-2S+
- GrooveA-52HPn
- New SFP+ modules
- SXT Lite5
- RB2011 product video
- RB1100AHx2 price reduction
- US and Mexico MUM news

Issue 50, August 2013

- RB912UAG-5HPnD-OUT
- SXTG-5HPnD-SAr2
- RB433UL
- Sixpack special upgrade offer

Issue 49, July 2013

- RB951Ui
- RB911G-2HPnD
- RB912UAG-2HPnD
- 6 new MUM events

Issue 48, May 2013

- CCR EM
- Groove 52
- RouterOS6
- MUM in South Africa

Issue 47, April 2013

- RB912UAG-5HPnD
- MUM in Russia
- RouterOS v6rc14

Issue 46, March 2013

- SXT Lite2
- RB911
- Sextant G
- MUM Europe recap
- New tutorial video

Issue 45, February 2013

- RB260GS
- SFP modules
- MUM Europe update

- New training classes
- OpenFlow support

Issue 44, January 2013

- SXT Lite5
- RB951G
- MikroTik awarded
- MUM in Europe
- Partitioning

Issue 43, December 2012

- SXT G-2HnD
- R2SHPn
- RB1100Hx2
- MUM Europe 2013
- Fastpath

Issue 42, November 2012

- Cloud Core Router pricing
- RB2011 new models
- Academy news
- MUM news and videos
- Hidden feature - cable problems
- RouterOS v6

Issue 41, August 2012

- RB2011 with wireless
- MikroTik youtube channel - \$99 rackmount
- MUM in Russia
- Academy in Indonesia
- RouterOS v5.20 released - RB44Ge Ethernet card
- New PoE out functionality

Issue 40, June 2012

- RB 951-2n
- Metal-5SHPn
- Price drop for R52
- MUM Conferences 2012
- MikroTik Academy

Issue 39, May 2012

- Sextant G
- OmniTik UPA price drop - New MUM events
- Quickset
- RB2011LS with SFP

Issue 38, April 2012

- Groove 2Hn
- SXT 5HPnD
- New MUM events
- RouterOS v6

Issue 37, March 2012

- RB411GL
- RB411UAHL

- RB411L
- RB433GL
- R5SHPn
- RB433L
- RB751G-2HnD
- OmniTikUPA-5HnD
- RB433UAHL

Issue 35, December 2011

- New RB1100AHx2
- MUM in Europe 2012
- RB750UP with PoE output
- RB SEXTANT

Issue 34, October 2011

- New RB1100AH
- MUM in Vegas wrap-up
- MUM in South America
- SXT Sixpack
- New RB711 models!

Issue 33, August 2011

- Improved routing performance by up to 24%
- L2MTU and it's importance in MPLS, QinQ etc
- a NEW product!
- Training and MUM information
- OmniTIK and Groove information

Issue 32, July 2011

- Omnitik is available!
- RouterBOARD 750GL
- Webfig Design Skin
- RouterBOARD 711-2Hn
- SXT MFM reflector
- MAX L2MTU feature
- HT extension channel option changed

Issue 31, May 2011

- RouterBOARD Groove
- RouterBOARD 1200
- RouterBOARD 435G
- MUM videos in HD
- MUM records broken
- new RouterBOARD webpage

Issue 30, February 3, 2011

- RouterBOARD SXT
- MUM conferences in 2011
- Forgotten features
- New LED controls
- SwOS updat

(broken) Issue 29, December 3, 2010

- MUM videos and presentations
- LCD and UPS support
- Wireless improvements
- SNMP write
- MFM for Software
- PCQ improvements
- SwOS

(broken) Issue 28, October 19, 2010

- low cost CPE devices
- a new RouterBOARD product
- MikroTik event updates
- new Nv2 features
- CPU load monitoring tool

(broken) Issue 27, August 10, 2010

- RouterBOARD 711
- Training classes in USA before MUM
- MUM in Brazil, Colombia and USA
- Nv2 TDMA protocol
- Multicore improvements

(broken) Issue 26, July 09, 2010

- The Dude 4
- MUM USA
- MikroTik used in Oil Spill cleanup
- New secure tunnel - SSTP
- Mulicore support extended

(broken) Issue 25, April 29, 2010

- RB411AR-M
- R52n-M
- RB1100 availability
- New Dude and RouterOS features
- MUM update

(broken) Special Issue, March 15, 2010

- MUM news
